PROFILE SUMMARY

Versatile Web Developer with expertise in Python, PHP, MySQL, and Django. Proven ability to build dynamic, scalable web applications and manage efficient databases. Strong skills in front-end and back-end development, ensuring seamless and intuitive user experiences.

EXPERIENCE

Full Stack Developer and Trainer
Apollo Computer Education
[Dec 2023] – [Jan 2024]

- Delivered in-depth training sessions on PHP and Python for individuals and teams, empowering learners with practical coding skills and problem-solving abilities.
- Designed, developed, and deployed dynamic, scalable web applications utilizing PHP and Python, ensuring robust performance and user satisfaction.
- Partnered with cross-functional teams to architect, implement, and refine web-based solutions, enhancing usability and aligning with business objectives.
- Engineered and maintained MySQL databases, optimizing data structures and improving query performance for seamless application functionality.

PROJECTS

1. Company Website

[Arka Technologies Web Portal](#) | Full-Stack Developer

- Project Overview:** Developed a comprehensive website for Arka Technologies, aimed at serving both company purposes and technical training courses.
- Technologies Used:** PHP, MySQL, HTML, CSS, JavaScript, Bootstrap5, jQuery.

2. My Portfolio

[Srinathdev.netlify.app](https://srinathdev.netlify.app)

- Project Overview:** Created a personal Portfolio Website to showcase my projects, experience, and achievements. It serves as a digital resume, allowing potential employers to explore my work and background in a user-friendly format.
- Technologies Used:** HTML, CSS, JavaScript, Bootstrap5, React js.
